

Objectives of Women's Education Partnership Education Projects

University Scholarships Project

- *To empower disadvantaged, marginalised and displaced women through education
- *To enhance Sudan's future by making university education more available to women
- *To provide university scholarships to undergraduate women in economic need who are living in Sudan.

Scholarship Project to Support Elementary Education

- *To assist children whose parents and/or carers have died or been incapacitated by HIV/AIDS
- *To concentrate on kindergarten and basic school education
- *To encourage people living with HIV/AIDS to have hope for the future

Vocational Training Scholarships Project

- *To empower disadvantaged, marginalised and displaced young men and women through technical education
- *To facilitate employment and income generating opportunities for young Sudanese, in particular those who have not been able to complete basic education
- *To provide technical skills, which will contribute to Sudan's development

Teacher Training and Support Project

*To secure a better future by promoting education for children disadvantaged by displacement, poverty and war

*To counter tribalism and religious antagonism and to enhance community cooperation by supporting people to work together for their children's education

*To train teachers in self-help basic schools and subsequently to monitor their performance and pay their salaries until such time as civil authorities are able to take over

*To help marginalised and displaced people keep open the basic self-help schools which they have set up

The Women's Literacy Project

*To raise the educational level of disadvantaged Sudanese women without regard to religion or ethnic origin through use of the Reflect Literacy Method

*To enable disadvantaged women to engage in their children's education and to find employment and a better life for themselves

*To work in response to public demand and in cooperation with community based organisations

University Scholars' Hostel

*To provide a dormitory for current WEP university scholars

*To give priority to scholars from outside the Khartoum area on a first come, first serve basis.

Objectives of Women's Education Partnership Educational Support Projects

Eye Care Outreach

*To assist displaced and impoverished people by provision of free eye examination, corrective lenses, medication, health education and surgical intervention

*To provide basic medications for non-eye related conditions as funding allows

*To give priority to women, children and the elderly

* To work in full cooperation with local communities

HIV/AIDS Awareness Outreach

*To combat HIV/AIDS through education and in cooperation with community leaders

*To counter the spread of HIV/AIDS through awareness outreaches in both the Khartoum area and in the Nuba Mountains

*To support through education and befriending those living with HIV/AIDS personally or in the family

The Solar Project

*To provide solar lighting panels for community educational, administrative, social and income generational purposes to displaced and impoverished peoples living beyond the electricity grid

*To give priority to sites which will concentrate on illiteracy work

*To promote community spirit and religious and ethnic tolerance by providing a facility which will enhanced shared evening activities
